

# Fire Warden / Fire Marshal

## Description:

This is a course specifically designed for those who have been or will be appointed to carry out the duties of a Fire Warden or Fire Marshall. The course covers the theory of combustion, the causes of fire and the correct way to fight a fire using the fire extinguishers available. The Fire Warden/Marshall course lasts approximately 3 hours.

## Objectives:

On completion of the course, delegates will be able to identify and respond to:

- Fire safety regulations/legislation
- Basic fire prevention
- Fire legislation
- The basic chemistry of fire and its different classes
- Fire fighting procedures
- Causes of fire and fire prevention
- Fixed firefighting equipment
- Evacuation assembly points and fire drills
- Fire alarms
- Fire hazards
- Human behaviour in a fire
- Risk assessment awareness
- Roles and responsibilities of a fire marshal/fire safety officer
- Fire extinguisher recognition and use (theory)

## Qualification:

On successful completion, candidates will receive a certificate which is valid for one year. This qualification provides sufficient evidence to satisfy the training requirements of the Regulatory Reform (Fire Safety) Order 2005.

## Typical Interest Groups:

All employers and employees in all work environments.

## Suitability:

Designed for all levels of staff to develop their awareness of fire, and how to manage an incident.

## Course Size:

The maximum number of delegates per session is 12.

## Prerequisites:

None. This course provides a good level of knowledge and skills to enable even a complete beginner to be confident in dealing with hazardous situations.

## Duration:

3 Hours
