Course Profile

Manual Handling Train the Trainer

Description:

The course covers manual handling as well as training techniques and lesson planning for delivering a course. It provides specialist information to enable individuals to deliver in-house manual handling training to their colleagues. This course is in accordance with the Manual Handling Operations Regulations 1992 and is designed to help trainers introduce delegates to the hazards and risks associated with manual handling. The course will enable trainers to help employees develop safer manual handling techniques. This course details training techniques and emphasises how delegates can get the most out of their training course.

Objectives:

On completion of the course delegates will be able to:

- Understand different learning styles
- Work in a team to complete a practical task
- Get the most out of communication techniques
- Get the most out of different learning resources
- Write an effective lesson plan
- Be able to manage a practical activity
- Be competent to deliver manual handling training in-house

Suitability:

This course is suitable for all operators, supervisors and managers.

Course Size:

The maximum number of delegates per session is 4.

Prerequisites:

Must be competent in the use of manual handling and understand the training syllabus.

Qualification:

On completion of the course, delegates will receive a certificate of competence.

Typical Interest Groups:

Anyone who performs manual handling tasks.

Duration:

7 Hours

Arion
Development through Training
Safety through Application
